**Hightech System Limited Proposal for Business Relationship with Ukraine:
Nigeria-Ukraine Strategic Innovative Business Industrial Development
Projects**

Please refer to our discussion and letters, particularly my last visit to the Embassy.

Please find attached five letters from Hightech System Limited on

- Tractors
- Trucks
- Tyre/Battery & Lubricant importation for our auto cluster support project
- Agro-Industrial Products/projects; Incorporating Cosmetics, Toiletries and Drug/Healthcare Processing Initiative
- Mobile/Field Hospital and other Mobile Logistics Intervention Products/Projects

We want to deal with Original Equipments Manufacturers/Producers not agents. Funding for the projects/programmes are available with/through our Banks/Bankers.

Your swift response will be helpful/supportive. I planned to visit Ukraine in November 2018 to see and discuss with the factory/producers.

Yours,

Ike Willie-Nwobu

TO WHOM IS CONCERN

Proposed Nigeria-Ukraine Strategic Innovative Industrial Commercial Projects: Trucks Procurement and/or Assembly

We are implementing a national logistics, haulage and agro-transportation scheme and require a truck manufacturing company from Ukraine as a support partner.

1. The Ukraine Company must be Original Equipment Manufacturer (OEM)
2. We will import the Chassis in CKD/SKD to be assembled in Nigeria
3. The Ukraine Company must provide spare parts and service/maintenance support services.
4. Offer technical and vocational support.

Capacity/Types:

The products will be in three types

- 3 – 7 Tons Vehicles
- 15 Tons Vehicles for
 - Water Tanker
 - Produce Body
 - Troop Carrier
- 280 Horse Power Tractor Head
 - That will carry about 900 50kg of cement
 - 45 liters of fuel, diesel and liquid

We can deal with two different trucks manufacturers for small and big products.

- Only with Original Equipments Manufacturers
- Not agents/dealers or representative.
- Initial product requirement/need is between 150 – 300 units (1000 trucks in a year)
- But we must start with samples order to try and test the production/market.
- All the production must be done in our factory.

Payments:

- All payments must be through our Bankers against invoice, letter of credit.
- All reply/response should copy our Joint Venture Partner/Transactional Adviser, **Ike Willie-Nwobu** on **08039432955**, e-mail: ikewillienwobu@yahoo.com and Head of Secretariat, **Lady Tina Onwuzurike** on **08162190244**, e-mail: chi12as@yahoo.com.

TO WHOM IS CONCERN

Proposed Nigeria-Ukraine Strategic Innovative Industrial Commercial Projects: Importation of Tyre/Battery and Lubricant from Ukraine

To support our Regional Auto-Cluster need, we need to import from manufacturers and producers the following products.

- Tyres: For Vehicles, Cars, Trucks and Tractors/Equipment
- Battery: For Cars, Trucks and Tractors Equipment/Generators and Telecommunication Base Stations and Transmission Stations
- Lubricants and Industrial Oils: For Vehicles, Automobile, Equipment and Industrial Oils

We will import samples

- First to test the market
- Register with the needed/necessary authorizes
- And must deal with only manufacturers and producers
- Must maintain exclusively and West African Agency and Dealership
- The products must be Ukraine products
- We will promote production/manufacturing assembly of the battery/tyres in Nigeria. Also parkaging of the lubricants in Nigeria.

All the payments must come through our Bankers.

Yours,

W. I. Nehemiah

TO WHOM IS CONCERN

Proposed Nigeria-Ukraine Strategic Innovative Industrial Commercial Projects: Tractors Procurement

Please refer to our discussions and meetings. We write to request for Nigeria-Ukraine Strategic Innovative Industrial Commercial Project in selected areas.

- Tractors: Tractors to be assembled in Nigeria for our agro-industrial projects
- The Tractors Capacity should be from 45 horse power to 100 horse power.
 - The majority of the Tractors should be within 45 – 80 horse power
 - The Tractors should be imported in CKD/SKD
 - And inputs/implements should also be needed. E.g harvesting, ridging etc.
 - The Tractors should be for farming and other value chain uses.
 - Initial need should be 500 – 1000 starting with samples products
 - The Tractor Company should be able to send technicians to Nigeria for the assembly of the Tractors.
 - We will visit the company first for discussion; thereafter send our technician for study tour and training.
 - All payments for the products will be made by our Bankers and through our Bankers

Conditions for Partnership:

- We will deal with only Original Equipment Manufacturers (OEM) and Producers.
- We will not work or relate with agents, dealers or distributors only with manufacturers and producers.
- Tractors must have spare parts and service/maintenance support system.

Purpose:

We are implementing a Tractor Assembly Production Manufacturing Programme in Nigeria with higher institutions. Higher Institution Tractorization Initiative (HITI) with initial Tractor need of 5000 units from Ukraine; we will start with 500 – 1000 units starting with initial samples order.

Notification:

- We are implementing the project with an agency of the Presidency
- Also to be used as a model for West African Collaboration
- Again only producers and manufacturers are qualified.
- We will work and relate directly with the producers and manufacturers directly not through agents/dealers or representative.

All answers, reply and response should copy our Joint Venture Partner/Transactional Adviser **Ike Willie-Nwobu** on **08039432955**, e-mail: **ikewillienwobu@yahoo.com** and Head of Secretariat, **Lady Tina Onwuzurike** on **08162190244**, e-mail: **chi12as@yahoo.com**.

TO WHOM IS CONCERN

Agro-Industrial Products and Projects: Incorporating Cosmetics, Toiletries and Drug/Healthcare Processing Initiative

Nigeria is in need of agro-food industrial products and presenting promoting agro-value chain products and projects.

We hereby request to be connected to Ukraine Companies who care already producing and manufacturing agro food-industrial products; cosmetics, toiletries, and drug/healthcare are processing.

- **We are in partnership of food/agro companies in Nigeria to expand their production**
- **We are also developing/agro-industrial parks and complex in six geo-political zones.**
- **Also 18 mini-industrial processing centers using our higher institutions**
- **The Ukraine Company will offer mentorship and guardian manufacturing services.**
- **Technical know-how/expertise.**
- **We will represent and promote the brand product.**
- **Promote and explore local agriculture products for the produce.**
- **Toiletries like tooth pastes, soaps, washing/detergents are good.**
- **Also drug/pharmaceutical.**

Project Implementation Process/Delivery Protocol:

- We will pay/fund all procurement of the SKD/CKD through our funding partners (Banks)
- Also all the technical partners and technical support: Technician who will be in Nigeria for the assembly.
- Organize maintenance/service training
- We must owe the product dealership, agency for at least five years in Nigeria and West African
- We will provide all the promotional content
- Ukraine will be paid for all the CKD/SKD, technical support, housing, security, transportation etc
- The first project will be in Enugu, South East
- Disclosure agreement/commitment of trust/honour must be signed by the Ukraine Company.

- We are not interested in one-off business but long term business project.
- We will not pay for Ukraine pre-business investment.
- If Ukraine Companies wants to visit Nigeria to see and access our factory/facility that's at their own cost.
- We will pay for our visit to Ukraine for the business meeting, inspection and product audit.
- All our visit/hotel, feeding, our technical people to Ukraine will be paid by us.
- Ukraine will deliver products/services to after payment from us.
- We will provide airport pick-up and protocol.
- Note: If the prize/cost is not competitive, we will not deal.

By way of introduction, we are partnership/project development company operating diverse joint venture partnership and investment integration with financial institution and state/federal government agencies.
