Corporate products | Business sections | Solutions

Continuous Innovation | Services & Supports

Cloud packaging platform | Smart packaging platform

01 Gift Boxes

02 Color Boxes

03 Corrugated Boxes

04 Manuals

05 Molded Pulp Trays

06 Stickers

Business sections

Provide end-to-end services from planning, design, R&D, production to delivery, logistics and distribution

Provide the overall solution of "service integration", "product integration" and "layout integration" to realize one-stop procurement

Service Network

Provides customers with the nearest service and delivery with 25 service points in the world
China, USA, Vietnam, India, Indonesia etc.

Fast Delivery

Informatization & automation management
Integrated solutions
Regionalized multi-site operation
Complete logistics and distribution

Integrated Supply Chain

Centralized procurement, reduce costs
Warehousing logistics, rapid delivery
Informatization management and enhance the competitiveness

Automated Management

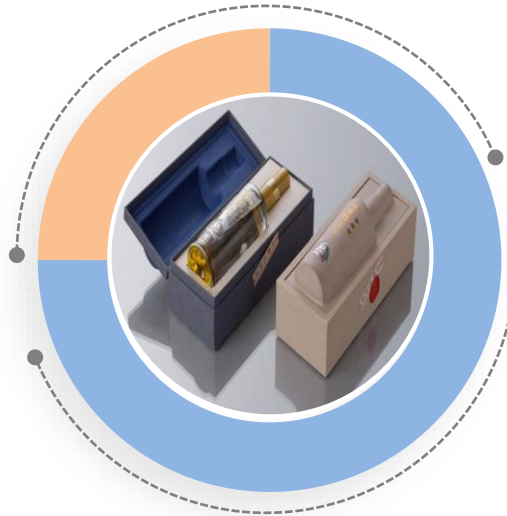

Integrating R&D, engineering and technical services in one
Fully-automatic production line
Automated engineering and technical services and solutions

Complete Logistics and Distribution

The nearest delivery minimize the cost of Logistics
25 production bases in the world
Establish a fast and efficient response mechanism

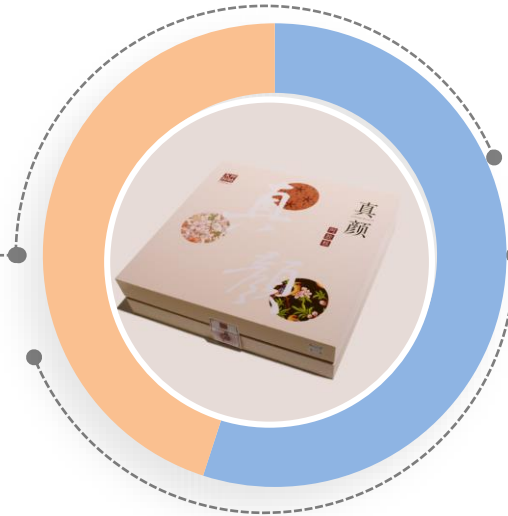

Environment-friendly packaging

- Pulp molding
- Eco-friendly ink
- Biodegradable material

Smart packaging

- QR code
- Invisible watermark
- RFID tag
- AR
- Digital watermarking

Functional packaging

- Fresh-keeping
- Dampproof
- Waterproof
- Anti-static

Cloud packaging platform

Provide customized packaging solutions for medium, small and micro-sized enterprises

WEB

Mobile

Cloud packaging supply system

Packaging DIY design system

The first cross-media printing public cloud platform

- Mutual Inductance Cloud Platform

- QR Code
- Visual Code
- Rainbow Code
- RFID/NFC
- Dot Matrix Code
- Invisible Code
- AR/VR

- One Thing And One Code
- Marketing Interaction
